5 Product Lifecycle And Market

In industry, product lifecycle management (PLM) is the process of managing the entire lifecycle of a product from inception, through engineering design and manufacture, to service and disposal of manufactured products. PLM integrates people, data, processes and business systems and provides a product information backbone for companies and their extended enterprise.

Product lifecycle - Wikipedia

Product lifecycle management (PLM) is a solution that offers a systematic approach to managing the sequence of changes a product undergoes, from its design and creation to its ultimate disposal or retirement.
