Amada Software Solutions are developed with the objective of increasing customer productivity through integrated development with Amada machines and an emphasis on virtual prototyping and simulation. Customers benefit from easy to use software that doesn't compromise on features and a broad range of solutions to meet all requirements.

**Software | Amada**

External programming CAM software of AMADA press brakes Quickly turning 3D-CAD designs into the fully formed component is easily possible using the BendCAM CAM solution. The software creates the bending sequence in manual or semi-automatic mode, giving the user the ability to determine the tools and machine configuration.
