Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

By Terry Stickels - June 7, 2010. When he was writing his Mathematical Games column for Scientific American magazine, the Washington Post called his office "the mathematical center of the earth." His book *Relativity for the Million* (later reprinted as *The Relativity Explosion*, Random House, 1976) is still considered to be the best explanation of Einstein's theories.
