Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state.

### **Twitpic**

3.This fluttery little bit of white is also one of the most cold-hardy of the non-hibernating butterflies, occasionally seen emerging during mid-winter mild spells in cities as far north as Washington, D.C., which I consider very poor taste indeed. Like any unwelcome company, there comes a time for the Small White cabbage moth to just leave, already.

Biomimetics or biomimicry is the imitation of the models, systems, and elements of nature for the purpose of solving complex human problems. The terms "biomimetics" and "biomimicry" derive from Ancient Greek: βίος (bios), life, and μίμησις (mīmēsis), imitation, from μιμεῖσθαι (mīmēisthai), to imitate, from μῖμος (mimos), actor. A closely related field is bionics.

**Biomimetics - Wikipedia**

*Urtica dioica* is a dioecious, herbaceous, perennial plant, 1 to 2 m (3 to 7 ft) tall in the summer and dying down to the ground in winter. It has widely spreading rhizomes and stolons, which are bright yellow, as are the roots. The soft, green leaves are 3 to 15 cm (1 to 6 in) long and are borne oppositely on an erect, wiry, green stem.

From our compilation of published scientific reports, we estimate the current proportion of insect species in decline (41%) to be twice as high as that of vertebrates, and the pace of local species extinction (10%) eight times higher, confirming previous findings (Dirzo et al., 2014). At present, about a third of all insect species are threatened with extinction in the countries studied ().

I crocheted myself a bag! I was heading out the night of my Birthday for a non-Birthday related event (which was awesome, by the way) and I REALLY wanted to use this bag, so I did have to finish it record time, and I was seriously still stitching the lining in as I was running out the door, but I did indeed finish it!
