Penn's Cave - America's Only All Water Cavern and Wildlife ...

Classic Cave Tour of Colossal Cave. The tour route is a half mile long and takes about 45-50 minutes to complete. As your guide relates the Cave's history, legends, and geology, you walk down and back up about six and a half stories (363 stair steps) and see beautiful cave formations like stalactites, stalagmites, flowstone, boxwork, and helictites.

COLOSSAL CAVE - Colossal Cave Mountain Park

Short sentence describing the business. One of the largest caverns in Pennsylvania, its nickname reflects its five spacious rooms, one of which, "The Hall of Statues" is 300 feet long.

cave tours, Woodward Cave Home

The one hour tour includes a movie in the Crystal Cave Theater, presenting the history of Pennsylvania's First Show Cave and geology of caves.

Historic Crystal Cave | First Show Cave in Pennsylvania

A cave or cavern is a natural void in the ground, specifically a space large enough for a human to enter. Caves often form by the weathering of rock and often extend deep underground. The word cave can also refer to much smaller openings such as sea caves, rock shelters, and grottos, though strictly speaking a cave is exogene, meaning it is deeper than its opening is wide, and a rock shelter ...

Sea cave: Sea cave, cave formed in a cliff by wave action of an ocean or lake. Sea caves occur on almost every cliffed headland or coast where the waves break directly on a rock cliff and are formed by mechanical erosion rather than the chemical solution process that is responsible for the majority of

About Crystal Cave Discovery. Crystal Cave was discovered in 1881 by local farm boys, William and George Vanasse. The discovery occurred while William and George were in the woods just a short distance from their home.

About Crystal Cave

Cave, also called cavern, natural opening in the earth large enough for human exploration. Such a cavity is formed in many types of rock and by many processes. The largest and most common caves are those formed by chemical reaction between circulating groundwater and bedrock composed of limestone or dolomite. These caves, called solution caves, typically constitute a component of what is known ...

Steeped in myth and magic and with great geological and topographical fascination, the short walk to MacKinnon's Cave (Grid ref NM 441323) can be a testing scramble over muddy ground and a large boulder beach before the entrance to Abbot MacKinnon's cave is reached.

Mackinnon's Cave - The Isle of Mull

The first annual small animal swap was held at Jacob's Cave in June 1979. With over 36 years of growth, it is now the largest swap meet in the Midwest and boasts attendance of over 30,000 people at each event. Not only are there small animals for sale or trade, but there is buying, selling and trading of an enormous variety of new and used items.
