Coders Work Reflections Craft Programming

Based on nearly eighty hours of conversations with fifteen all-time great programmers and computer scientists, the Q&A interviews in Coders at Work provide a multifaceted view into how great programmers learn to program, how they practice their craft, and what they think about the future of programming.

Coders At Work: Reflections On The Craft Of Programming ...

Coders at work transcribes 16 some odd interviews of both new and old school programming giants culminating with Donald Knuth. For me it was the right book at the right time. After a year of studying algorithms, languages, and hardware, it was good to hear the voices of experience detailing the struggles of their day-to-days.

Coders at Work: Reflections on the Craft of Programming by ...

Patterned after the best selling Founders at Work, Coders at Work represents two years of interviews with some of the top programmers of our times. Readers will find out what ... - Selection from Coders at Work: Reflections on the Craft of Programming [Book]

Coders at Work: Reflections on the Craft of Programming

Peter Seibel interviews 15 of the most interesting computer programmers alive today in Coders at Work, offering a companion volume to Apress's highly acclaimed best-seller Founders at Work by Jessica Livingston. As the words "at work" suggest, Peter Seibel focuses on how his interviewees tackle the

Coders at Work: Reflections on the Craft of Programming and over 1.5 million other books are available for Amazon Kindle . Learn more

Coders at Work: Reflections on the Craft of Programming ...

There is also the small matter that not all of the interviewees are great or deep thinkers. You can't help but feel that they didn't get into programming because it was a vocation and they don't really think much of the task. Others seem to know that they have done something important, but can't seem to generalize the ideas.

Coders at Work: Reflections on the Craft of Programming

Peter Seibel interviews 15 of the most interesting computer programmers alive today in Coders at Work, offering a companion volume to Apress's highly acclaimed best-seller Founders at Work by Jessica Livingston.
