This study examines the relationship between board gender diversity and corporate environmental violations. Drawing on gender socialization and diversity theories, greater female board representation and female chief executive officers (CEO) are expected to reduce the frequency of corporate environmental violations.

While the original Islamic banking proponents hoped profit-loss sharing (PLS) would be the primary mode of finance replacing interest-based loans, long-term financing with profit-and-loss-sharing mechanisms is "far riskier and costlier" than the long term or medium-term lending of the conventional banks, according to critics such as economist Tarik M. Yousef.
