had more countries been willing to abandon the gold standard and use monetary policy to counter the slump, fewer would have been driven to impose trade restrictions. The Great Depression was a breeding ground for protectionism. Output fell, prices declined, and unemployment rose, pressuring ...

### **The Roots of Protectionism in the Great Depression**

Protectionism is the economic policy of restricting imports from other countries through methods such as tariffs on imported goods, import quotas, and a variety of other government regulations. Proponents claim that protectionist policies shield the producers, businesses, and workers of the import-competing sector in the country from foreign competitors.
