### **Electronic Music Systems Techniques And**

Electronic music is music that employs electronic musical instruments, digital instruments and circuitry-based music technology. In general, a distinction can be made between sound produced using electromechanical means (electroacoustic music), and that produced using electronics only. Electromechanical instruments include mechanical elements, such as strings, hammers, and so on, and electric ...

### **Electronic music - Wikipedia**

Electronic instrument: Electronic instrument, any musical instrument that produces or modifies sounds by electric, and usually electronic, means. The electronic element in such music is determined by the composer, and the sounds themselves are made or changed electronically. Instruments such as the electric guitar that

Electronic dance music (EDM), also known as dance music, club music, or simply dance, is a broad range of percussive electronic music genres made largely for nightclubs, raves and festivals. It is generally produced for playback by disc jockeys who create seamless selections of tracks, called a mix by segueing from one recording to another. EDM producers also perform their music live in a ...

Synthi A. The Synthi A and Synthi AKS models are virtually the same electronic instrument as the EMS VCS3, except that the Synthi models are housed in a thin plastic briefcase for easy portability. The Synthi A was also commonly known as the "Portabella". The AKS model (pictured below) adds a 256-step on-board monophonic digital sequencer and a 30-note touchplate keyboard (activated by the 50 ...
