Environment Friendly Hill Development An

Environmentalism or environmental rights is a broad philosophy, ideology, and social movement regarding concerns for environmental protection and improvement of the health of the environment, particularly as the measure for this health seeks to incorporate the impact of changes to the environment on humans, animals, plants and non-living matter. While environmentalism focuses more on the ...

1.1.. Waste characterization Waste characterization is an essential requirement in the development of an effective industrial waste management plan (Sharma and Lewis, 1994). Prior to establishing strategies for the control and treatment of waste, it is necessary to know whether the waste contains constituents which are hazardous (Hoorweg, 2000). One of the simplest systems for characterization ...
