Management (or managing) is the administration of an organization, whether it is a business, a not-for-profit organization, or government body. Management includes the activities of setting the strategy of an organization and coordinating the efforts of its employees (or of volunteers) to accomplish its objectives through the application of available resources, such as financial, natural ...

Much water has flowed down the bridge since the substantive provisions in the Companies Act, 2013 (herein after referred to as "the Act") became operational from April 1, 2014. The Act has been a subject of wide spread criticism from the Industry and the professional fraternity alike as it contains certain provisions which are regressive and retrograde and can hardly pass muster as an ...

Corporate finance is an area of finance that deals with sources of funding, the capital structure of corporations, the actions that managers take to increase the value of the firm to the shareholders, and the tools and analysis used to allocate financial resources. The primary goal of corporate finance is to maximize or increase shareholder value. Although it is in principle different from ...

1. Introduction. Project management has been in vogue since the end of the 1980s, even though it is not, by any means, a simple trend. Interest in the various means of steering human activities has not declined over time in the media, as well as managerial and academic circles.

A history of project management models: From pre-models to ...

1. The nurse is taking a health history of a new patient. The patient reports experiencing pain in his left lower leg and foot when walking. This pain is relieved with rest. The nurse notes that the left lower leg is slightly edematous and is hairless. When planning this patient's subsequent care, the nurse should most likely address what health problem?
