### **Garcinia Cambogia Safe For Weight**

Garcinia cambogia (GC) is a small, pumpkin-shaped fruit that grows in Southeast Asia and India. The key active ingredient found in the rind of garcinia cambogia is hydroxycitric acid (HCA), which some research suggests can help certain people lose weight. (Currently, there are at least 14 separate HCA-containing products sold over-the-counter to consumers labeled as "garcinia cambogia.")
