Geodesic Dome Plans Domerama

The following plans are all from Paul of Geo-Dome, an expert in geodesic structures that are easy for anyone to build. He has been offering the following plans for many years, and with great success to clients around the world.

Geodesic Dome plans » Domerama

The Tactile Dome is an interactive experience through total darkness. It was created in 1971 and is still a popular stop for people visiting the Exploratorium. We thought you might like to read the original press release, which provides a peek into the Tactile Dome's history.

Domerama

Benefits, Costs, and Environmental Impact. A geodesic dome is a spherical or partial-spherical shell structure or lattice shell based on a network of great circles (geodesics) on the surface of a sphere.
