Interpersonal Skills For Portfolio Program

Conclusions. Program management is a distinct discipline from project management, and although most project management roles are present in programs (since programs contain projects), there are roles within program management that hold distinct responsibilities and as such require particular skills that differ from their counterparts in projects.

Roles, responsibilities, and skills in program management

An ability and capacity acquired through deliberate, systematic, and sustained effort to smoothly and adaptively carry out complex activities or job functions involving ideas (cognitive skills), things (technical skills), and/or people (interpersonal skills). See also competence.
