Before you get to market and sell your new invention, you'll likely need to raise some capital in order to fund the production, packaging, storage, shipment, and marketing costs for your product, which you can do through a variety of means including acquiring investors, taking out business loans, or applying to governmental and grant programs.

### **Invention Funding: How Inventors Raise Money - ThoughtCo**

Easier - Inventors are persons who think of, create, or make something that is new. Harder - To invent something means to create a new device, come up with a new process, or to make a new product. Invention is closely related to, but different than discovery. A discovery is the first recognition of something that already existed in nature.
