Lecture Notes Introduction To Programming

These are the lecture notes I use in my course, Introduction to Java Programming, taught most semesters at Polytechnic University in Brooklyn (formerly known as Brooklyn Poly). This class is being taught at the senior undergraduate and introductory graduate level for computer science majors, and is split into 13, two hour fifteen minute classes plus a final exam:

This is a fast-paced introductory course to the C++ programming language. It is intended for those with little programming background, though prior programming experience will make it easier, and those with previous experience will still learn C++-specific constructs and concepts. This course is offered during the Independent Activities Period (IAP), which is a special 4-week term at MIT that ...
