Magic Quadrant For Wan Optimization

Gartner named Silver Peak SD-WAN a leader in the New 2018 WAN Edge Infrastructure Magic Quadrant. Read the full report here!

Gartner Magic Quadrant for SD-WAN Edge - silver-peak.com

Magic Quadrant (MQ) refers to a series published by IT consulting firm Gartner of market research reports that rely on proprietary qualitative data analysis methods to demonstrate market trends, such as direction, maturity and participants. Their analyses are conducted for several specific technology industries and are updated every 1-2 years.

Magic Quadrant - Wikipedia

WAN optimization is a collection of techniques for increasing data transfer efficiencies across wide-area networks (WANs). In 2008, the WAN optimization market was estimated to be \$1 billion, and was to grow to \$4.4 billion by 2014 according to Gartner, a technology research firm. In 2015 Gartner estimated the WAN optimization market to be a \$1.1 billion market.

WAN optimization - Wikipedia

At first glance, SD-WAN and WAN Optimization appear to perform very similar functions and can be substitutes for each other. Often erroneously mentioned as synonymous technologies, a deeper examination reveals two very distinct and highly complementary technologies with very limited feature overlap.

Demystifying SD-WAN's Relationship to WAN Optimization

Get your customer's attention with high impact audiovisual programs that combine your brand promotion, marketing messages and client testimonials with trusted Gartner research.
