go to www.national.com to find LF353 website 2012: National acquired by TI: now list GBWP as 3MHz.. Input bias current. If the two inputs of an op amp are connected together and placed in series with a sensitive ammeter to ground, the resulting current is two times the input bias current. Most common op amps, including the LF353, have junction field effect transistor (JFET) on their inputs.

Atypical hemolytic uremic syndrome (aHUS) is an extremely rare, life-threatening, progressive disease that frequently has a genetic component.In most cases it is caused by chronic, uncontrolled activation of the complement system, a branch of the body's immune system that destroys and removes foreign particles. The disease affects both children and adults and is characterized by systemic ...
