### **Safety Data Sheets For Chemicals**

This model Code of Practice has been developed to provide practical guidance on how to prepare a safety data sheet for any hazardous chemicals that are being manufactured or imported for use, handling or storage in Australia. It applies to a person conducting a business or undertaking involved in the manufacture or import of hazardous chemicals that will be used, or could reasonably be ...

Safety Data Sheet Resources. You can use this page to find Safety Data Sheets and additional sources of chemical hazard information

### **UC Safety Data Sheets**

This fact sheet will help you understand the information contained in a safety data sheet (SDS), what each section in the SDS means and how to check if a SDS complies with the Work Health and Safety (WHS) Regulations. By reading, understanding and following the information and instructions in an SDS, all chemicals should be able to be used safely in the workplace.

### **Understanding Safety Data Sheets for Hazardous Chemicals ...**

A Chemicals Safety Data Sheet (SDS) describes the hazards of a product and explains how a product can be safely handled, used, and stored.

### **Chemicals Safety Data Sheets | Shell Global**

What is a Safety Data Sheet? A safety data sheet, or SDS, is a standardized document that contains occupational safety and health data. The International Hazard Communication Standard (HCS) mandates that chemical manufacturers must communicate a chemical's hazard information to chemical handlers by providing a Safety Data Sheet.
