This is a draft of a proposal to create a more advanced, more credible credential (certification) in software testing. The core idea is a certification based on a multidimensional collection of evidence of education, experience, skill and good character.

testing « Cem Kaner, J.D., Ph.D.

In actual practice, however, there should be no distinction between the informational aspect of counseling and the emotional component. There is considerable research evidence indicating that clients do not retain much content after a diagnostic evaluation (Margolis,2004; Martin, 1990) and the reason for the low retention of content is directly related to their anxiety level (Kessels, 2003).
