How to profit from pig farming | How To Raise Livestock

Copra(or khobara) is the dried meat or kernel of the coconut, which is the fruit of the coconut palm (*Cocos nucifera*). Coconut oil is extracted from copra, making it an important agricultural commodity for many coconut-producing countries. It also yields de-fatted coconut cake after oil extraction, which is mainly used as feed for livestock.

Copra - Wikipedia

Animal husbandry is the branch of agriculture concerned with animals that are raised for meat, fibre, milk, eggs, or other products.It includes day-to-day care, selective breeding and the raising of livestock. Husbandry has a long history, starting with the Neolithic revolution when animals were first domesticated, from around 13,000 BC onwards, antedating farming of the first crops.
