### **Structural Steel Design 5th Ed**

History. The method of producing an I-beam, as rolled from a single piece of steel, was patented by Alphonse Halbou of the company Forges de la Providence in 1849.. Bethlehem Steel was a leading supplier of rolled structural steel of various cross-sections in American bridge and skyscraper work of the mid-twentieth century. Today, rolled cross-sections have been partially displaced in such ...

Main articles: Fire testing, Design using structural fire standards All hot rolled structural steel sections have some inherent fire resistance and this is a function of the size of the section, its degree of exposure to the fire and the load that it carries. Fire resistance is usually measured in relation to the ability of the structural section to survive in a standard fire test as outlined ...
