Different industries have different needs in the manufacturing of carbon fiber composites. The Composites Manufacturing and Simulation Center (CMSC) works with a range of industries to ensure they have the control of material microstructure to achieve specific stiffness and lifetime performance of their product.

CMSC - Purdue University

As of late October 2017, there has been extensive discussion on the Git mailing list, wherein the command git stash save is being deprecated in favour of the existing alternative git stash push. The main reason for this is that git stash push introduces the option of stashing selected pathspecs, something git stash save does not support.

Git - Stashing and Cleaning

Sorry it is not working for un-indexed variables. To test out a fix, you can copy the code to read in the solver result file into an IronPython window in SolverStudio, and then test the changes you make to the code (which we would welcome back as a contribution).

Stardog 6: The Manual

More on the psych package. The psych package is a work in progress. The current released version is 1.3.2. Updates are added sporadically, but usually at least once a quarter. The development version is always available at the pmc repository.. If you want to help us develop our understanding of personality, please take our test at SAPA Project. ©William Revelle and the Personality Project.

Using R for Structural Equation Modeling - Personality Project

An optical fiber is a flexible, transparent fiber made by drawing glass or plastic to a diameter slightly thicker than that of a human hair. Optical fibers are used most often as a means to transmit light between the two ends of the fiber and find wide usage in fiber-optic communications, where they permit transmission over longer distances and at higher bandwidths (data rates) than electrical ...
