3 Mr. Tjoa's question was the title of one of two short papers he submitted in response to the "economic naturalist" writing assignment in my introductory economics course.

Introduction - Robert H Frank

An economy (from Greek οἶκος - "household" and νέμομαι - "manage") is an area of the production, distribution, or trade, and consumption of goods and services by different agents. Understood in its broadest sense, "The economy is defined as a social domain that emphasize the practices, discourses, and material expressions associated with the production, use, and management of ...

The economy of Italy under fascism refers to the economy in Italy between 1922 and 1943 when the fascists were in control. Italy had emerged from World War I in a poor and weakened condition and post-war there was inflation, massive debts and an extended depression. By 1920, the economy was in a massive convulsion—mass unemployment, food shortages, strikes and so on.

Monopoly is a term used by economists to refer to the situation in which there is a single seller of a product (i.e., a good or service) for which there are no close substitutes. The word is derived from the Greek words monos (meaning one) and polein (meaning to sell).. Governmental policy with regard to monopolies (e.g., permitting, prohibiting or regulating them) can have major effects not ...
