### **The Earth Made New Plains**

Earth is the third planet from the Sun and the only astronomical object known to harbor life. According to radiometric dating and other sources of evidence, Earth formed over 4.5 billion years ago. Earth's gravity interacts with other objects in space, especially the Sun and the Moon, Earth's only natural satellite. Earth revolves around the Sun in 365.26 days, a period known as an Earth year.

### **Earth - Wikipedia**

Rohan (from Sindarin Rohand) is a kingdom in J. R. R. Tolkien's fantasy setting of Middle-earth. It is mainly a grassland, and lies north-west of its ally Gondor, and further north-west of Mordor, the realm of Sauron, their enemy (see maps of Middle-earth). It is inhabited by the Rohirrim, a people of herdsmen and farmers who are well known for their horses and cavalry.

The Plains Indians are the Indigenous peoples who lived on the plains and rolling hills of the Great Plains of North America. They are often thought of as the archetypal American Indians, riding on horseback, hunting buffalo, wearing headdresses made with eagle feathers, and speaking in sign language. This is due at least in part to their lengthy and brave resistance to colonial demands, often ...

The geological history of Earth began 4.567 billion years ago, when the planets of the Solar System were formed out of the solar nebula, a disk-shaped mass of dust and gas left over from the formation of the Sun. Initially molten, the outer layer of the planet Earth cooled to form a solid crust when water began accumulating in the atmosphere. The Moon formed soon afterwards, possibly as the ...
