The Mystery Of Lifes Origin

Color Theory - Color as Light . SIR ISAAC NEWTON (1643-1727) The refraction of light through a glass prism. Around 1671-72, Sir Isaac Newton discovered the origin of color when he shone a beam of light through an angular prism and split it into the spectrum - the various colors of the rainbow. This simple experiment demonstrated that color comes from light - in fact, that color is light.

"To become truly immortal a work of art must escape all human limits: logic and common sense will only interfere. But once these barriers are broken it will enter the regions of childhood vision and dream." De Chirico is most famous for the eerie mood and strange artificiality of the cityscapes he ...

Presentations look across the American Memory collections to investigate curricular themes. They include historical background, helping to tell the story behind the theme. Activities offer an interactive, "hands on" experience and focus on a specific topic, rather than broad themes. They require teacher direction, but invite students to participate.
