There've been some misunderstandings about exactly how many books will be in the series, when they're out, and what they even are. I try to keep people updated as best I can, so I'm making this post for reference. Hope this helps! &nb

The Selection Series — Kiera Cass

Natural selection is the differential survival and reproduction of individuals due to differences in phenotype.It is a key mechanism of evolution, the change in the heritable traits characteristic of a population over generations. Charles Darwin popularised the term "natural selection", contrasting it with artificial selection, which in his view is intentional, whereas natural selection is not.

Darwin and Natural Selection. Most educated people in Europe and the Americas during the 19th century had their first full exposure to the concept of evolution through the writings of Charles Darwin. Clearly, he did not invent the idea. That happened long before he was born. However, he carried out the necessary research to conclusively document that evolution has occurred and then made the ...

The first and greatest Weird Comics superhero was Thor, God of Thunder, which got a little confusing when, five issues later, they added a second, less amazing Thor to the comic: "Dynamite" Thor, The Explosion Man. He was a combination of all the crappiest parts of Bruce Wayne and Timothy McVeigh, a wealthy miner who used his knowledge of explosives to bomb crime!
