To Siri With Love The

Siri (pronounced / ' s ɪ r i /) is a virtual assistant that is part of Apple Inc.'s iOS, watchOS, macOS, and tvOS operating systems. The assistant uses voice queries and a natural-language user interface to answer questions, make recommendations, and perform actions by delegating requests to a set of Internet services. The software adapts to users' individual language usages, searches, and ...

The ever helpful and sometimes comical Siri is a rather vocal virtual assistant, defaulting to speaking back a response to directions and commands. But if you want to hush that Siri voice feedback response while still using the feature for commands and queries, you can enable an optional setting that causes Siri to obey the broader iPhone and iPad hardware mute switch.

7 Genuinely Useful Things To Do with Siri. I find myself using Siri constantly. Most of it is exactly what others are saying, but I'll do it to remind me to take clothes out of the washer and dryer, to set meetings, reminders, check sports scores, standings, schedules, stats, movie times, movie reviews, send texts, etc. etc.
