Local news, sports, business, politics, entertainment, travel, restaurants and opinion for Seattle and the Pacific Northwest.

### **Nation & World Politics | The Seattle Times**

The phrase "new world order" was explicitly used in connection with Woodrow Wilson's global zeitgeist during the period just after World War I during the formation of the League of Nations. "The war to end all wars" had been a powerful catalyst in international politics, and many felt the world could simply no longer operate as it once had. World War I had been justified not only in terms of U.S ...

Global politics, also known as world politics, names both the discipline that studies the political and economical patterns of the world and the field that is being studied. At the centre of that field are the different processes of political globalization in relation to questions of social power.. The discipline studies the relationships between cities, nation-states, shell-states ...

James Glattfelder studies complexity: how an interconnected system -- say, a swarm of birds -- is more than the sum of its parts. And complexity theory, it turns out, can reveal a lot about how the world economy works. Glattfelder shares a groundbreaking study of how control flows through the global economy, and how concentration of power in the hands of a shockingly small number leaves us all ...

A new survey report looks at attitudes among Muslims in 39 countries on a wide range of topics, from science to sharia, polygamy to popular culture. The survey finds that overwhelming percentages of Muslims in many countries want Islamic law to be the official law of their land, but there is also widespread support for democracy and religious freedom.
